Felt pens

Doodle Art

Doodling basically means to make a drawing without thinking about it too much. This kind of art has been used for hundreds of years as a way to relax and have fun. Turn your name into a doodle by adding a cool outline and simple decorations.

Tohutohu | Instructions

- 1 Write your name in pencil in the middle of your paper, very lightly with the letters spaced out.
- 2 Using a felt pen draw lines around the stick letters, turning them into block letters. Erase your pencil letters.
- 3 Draw a second outline around your first outline, like a bubble.
- 4 Draw some shapes around the letters – these can be round or spikey like shark fins.
- 5 Layer up your shapes.
- 6 Colour them in and you are done!
