

Self-guided Worksheet for Role and Perspectives Activity in a Gallery Space

In your chosen gallery space give students the following perspectives to consider:

- An audience member
- An artist
- A designer at the gallery
- A curator at the gallery
- An educator
- A marketing team member

Consider:

- What aspects of this space will the chosen role be most concerned with?
- How are those aspects evident in the space?
- In what ways would the different roles need to work together to solve problems?
